Seminars & Workshops

Mr. Mechlenburg maintains a commitment to keeping pace with current surveying and engineering methods and technologies by attending seminars, workshops, and conferences pertinent to the profession.

William J. Mechlenburg, Jr. is a Professional Land Surveyor with Porter Consulting Engineers, P.C., and holds the position of Project Manager. Bill has over 45 years of surveying and land development design projects. Bill has experience in subdivision design, land development plan preparation, stormwater management plan preparation, permit application preparation, topographic surveys, boundary line surveys, boundary line resolution, records research, construction management, and construction inspection.

Currently as a Project Manager with PCE, Bill's responsibilities include land development planning and design for commercial and industrial developments including roadway, infrastructure, and stormwater management design, erosion and sedimentation pollution control plans, and NPDES plans and permitting, construction management and inspections.

Professional Memberships

Pennsylvania Society of Land Surveyors
National Society of Professional Surveyors
American Society of Civil Engineers

Experience

2007 – Present Porter Consulting Engineers, P.C.; Meadville, Pennsylvania
Project Manager

As a Project Manager with PCE, Bill performs land development planning and design for commercial and industrial developments including roadway, infrastructure and stormwater management design, erosion and sedimentation pollution control plans, NPDES plans and permitting, boundary line surveys, topographic surveys, and ALTA/ACSM land title surveys.

1972 – 2007 David Laird Associates; Erie, Pennsylvania
Professional Licensed Surveyor

Responsibilities included survey crew chief, Chief of Surveys, land development planning and design for commercial, industrial and residential developments including roadway, infrastructure and stormwater management design, erosion and sedimentation pollution control plans, NPDES plans and permits, Chapter 105 permits, sewage facility planning, and construction cost estimating. Bill was an agency contact and representative to the client, contractor, municipality and regulatory agencies, and served as an expert witness and arbitrator.

1970 – 1972 Acme Engineers; Erie, Pennsylvania
Field Crew

Responsibilities included survey technical and draftsman for commercial and residential developments.
